

Model No.:**AC-P800R**

Specification:

| | |
|--------------------------------------|---|
| Type : | COLOGY AC-P800R Air cleaner- Luxurious landing |
| Dimensions surface size : | Outlook appearance:750mm × 690mm × 335mm |
| Air flow : | HI : 610CFM MED : 425CFM LOW : 255CFM |
| Voltage : | AC 110V / 220V 60Hz |
| Wattage : | Within 120 WATTS |
| Weight : | 22.5 KG |
| Collecting Box Size / Qty : | 500mm × 314mm × 110mm / 1set |
| Collecting Box specification : | Low noise collecting box |
| Pre-filter : | The aluminum system lattice interlocks / 1 piece |
| Active carbon : | Honeymoon grain carbon filter |
| Cell voltage (two-stage) : | Ionizing Section : 8,000VDC / Collecting Section : 4,000VDC |
| Pitch : | 4mm |
| Colleting boxes : | 71pcs |
| Box sheet metal : | High degree of hardness Ammonium board |
| Security power failure installment : | yes |
| Revolution indicating device : | Has the revolution power source ON / OFF / HIGH / Mid/ Low / speed & Breakdown condition instruction |
| Suitable square meter : | Within 70 square meter (depending on pollution situation) |
| Special : | <p>Safe、 Low wind resistance、 Saves the electricity。</p> <ol style="list-style-type: none"> 1. The outward appearance is exquisite, cannot construct may use immediately.。 2. Improves the air quality immediately, reduces opportunity which disease infects alternately.。 3. Increases air system's operating efficiency, saves the air-conditioning plant clean maintenance cost, prevents to breed the infection carrier, the extension service life.。 4. The low noise collection dust box design, reduces the revolution noise which the general electronic formula collection dust produces.。 5. May select and purchase the fitting in addition: The infrared wireless remote control (may fixed time), the Tio² light catalyst, the HEPA high efficiency mesh, the anoin producer, the O³ ozone producer...And so on. |
